MAYNARD PUTNAM, } *Overseers of the Poor*
 ROBERT JONES, } *of the town of*
 JOHN P. LOVELL, } *Millbury.*

Engineer's Report.

During the past year the three Fire Engines belonging to the town have been maintained in good working order.

By vote of the town, Engine Co. No. 3, is entitled to a force of 35 men ; No. 4, to 40 men ; and No. 5, to 30 men—but owing to representations made by Companies No. 3 and 5, that the number of men allowed was insufficient to properly work the engines, 5 men were added to each of those Companies by the Board of Engineers,—making in Company No. 3, 40 men; in Company No. 4, 45 men; and in No. 5, 30 men; a total of 115 men, which force it is recommended be maintained as necessary for efficient service.

The Fire Department has been called to attend three fires during the past year.

At the partial burning of the mill of Nelson Walling, in July, the three Companies with their engines were present and rendered efficient service. A small fire in a tenement house at Cordis Mills; and another in the drying-room attached to the dye house of the Cordis Mills, during the winter, called out Engine Co. No. 4, but the fire in each case was extinguished before the alarm became general.

The members of the different Engine Companies have, almost unanimously, united in signing a petition asking for an increase of pay, from five dollars and poll tax to ten dollars and poll tax per annum, for each fireman ; which petition is respectfully submitted for the action of the town.

In view of the alarming conflagrations which have recently occurred in other places, and to which, although thus far happily exempt, this town is at any time liable, we would call attention to the totally inadequate supply of water in case of a fire of any extent, especially if occurring away from the line of the streams, or out of reach of the force pumps of the different mills.

It is plain that some measures should be at once taken to furnish the villages of the town with a supply of water for extinguishing fires ; and we would respectfully recommend that a committee be appointed to consider the best means of furnishing an adequate supply of water for fire purposes, and to report at a future meeting.

The expenses of the Fire Department thus far, the past year, will appear from the following account.

Dr. Jan. 4, 1873, to bill of Eddy & Studley for Jack- ets and Overalls,	14 90

Report of Public Library.

The Trustees of the Town Library herewith submit their annual Report.

During the past year there have been added to the Library, forty seven volumes, making the total number seventeen hundred and ninety-five. This addition is made up of thirty-two volumes purchased during the year; thirteen volumes received from Hon. Geo. F. Hoar; one volume presented by the Cobden Club; one volume presented by the Seventh Day Adventist Tract Society. The small number of volumes purchased during the year is explained by the fact that our last annual purchase was made just prior to the last report, and was paid for out of the appropriation of the current year. The volumes above indicated as purchased, were added by the Trustees, from time to time as they had opportunity; the books presented by Mr. Hoar were government publications; those from other sources are in defence or explanation of the views held by the donors. In addition to the foregoing, we have received from Mrs. Lucy B. Barker, several unbound volumes of the Herald of Health of the date of 1840, which will be bound and put in circulation the coming year. We shall be glad to receive from any of our citizens contributions of books or pamphlets.

We have so far as now appears, lost but four books during the year: of one of these we have no trace; the others are to be paid for by the parties to whom they are charged on our books.

Many of the books are showing signs of wear, a fact significant of the value of the Library, and the expense of restoring or replacing them will annually increase.

The value of the Library is further shown by the large number of persons availing themselves of its advantages.

The number of persons taking books from the Library, as appears by the Librarian's record, has been 625. This does not however represent the actual number of takers, as in many instances the father is chargeable with books taken by the children and becomes directly responsible; so, too, the husband is chargeable with books taken by himself and wife.

The whole number of books taken from the Library during the year has been seven thousand two hundred and ninety-nine.

These have in many instances been read by parties other than the takers, and it is safe to add ten per cent. to this number to find the whole number of volumes read from the public library. The larger part of these were works of fiction, biography and travel ; and of these three classes, probably works of fiction formed the larger part.

From the foregoing exhibit, the value of the Library to our community appears, as it is highly probable that in no other way would there be an opportunity for us to gratify our taste for reading to such an extent.

We have received from the selectmen during the

year the sum of \$733 88

which has been expended as follows :

For books purchased prior to last report,	440 99
For books purchased during the year,	48 57
For Catalogues,	78 52
For rent,	75 00
For salary of Librarian,	75 00
For fuel,	10 00
For table,	3 00
For printing,	2 00

\$733 08

We have received for fines and catalogues,

55 74

Which deducted from the foregoing, leaves \$677 34 as the actual cost to the town for the care and maintenance of the Library during the year.

The Librarian has asked for an increase of salary ; considering that the Library is open 104 half-days in the year, we do not regard the request as unreasonable, and ask an appropriation of \$100 to meet this expense.

Our estimate for the next year is as follows :

For rent,	\$100 00
For salary of Librarian,	100 00
For fuel,	12 00
For lights,	10 00
For rebinding of old books,	50 00
For new books,	500 00
Making a total of	\$772 00

To meet this expense, we ask for an appropriation of \$600, and the dog fund refunded to the town by the County Commissioners.

During the year a large number of fines have been levied for the detention of books beyond the time permitted by our regulations. We have regretted that the occasion existed for this, as they are not imposed for revenue purposes, and hope that

hereafter the necessity for it may cease, as it is almost an injustice for parties to detain a book beyond the two weeks allowed, as others are thereby debarred from the privilege of its perusal.

The following By-Laws have been adopted by the Trustees for the management of the Library :

I. The Library is free to all the citizens of the town, and to all pupils attending the public schools therein, of the age of fourteen years and upwards.

II. Parties not known to the Librarian, as of either of the two classes above named, will be required to furnish a certificate in writing to that effect signed by some known citizen.

III. Persons between the ages of seven and fourteen may take books, provided their parents or guardians in writing request the delivery of books to them, and agree to become responsible for all fines that may be imposed, and for all damages that may be assessed, on account of injury to books thus delivered.

IV. Books may be kept out two weeks, and for every day's detention beyond that time, a fine of two cents a day shall be imposed. For all damage to books, other than the ordinary wear and tear, the person charged with the book shall be held responsible for such sum as may be assessed by the Trustees, and they only shall have power to modify or abate the assessment.

VI. No person against whom damages have been assessed or upon whom fines have been imposed under the preceding By-Laws shall be permitted to take books from the Library until the full amount of such assessment or fines shall have been paid.

VII. One work only shall be taken from the Library at a time.

VIII. All books shall be taken direct from the Librarian, and returned to her, and no person shall remove a book from the shelves without her consent.

IX. Loud talking and rude behavior in the Library room is forbidden.

X. Any violation of either of the two preceding By-Laws will be punished by exclusion of the offender from the Library room during the pleasure of the Trustees.

XI. Persons sending to the Library for books, must send a written request for the delivery of books to the bearer, to be charged to the sender, together with a list of numbers of books to be thus sent, and the Librarian will deliver to the bearer the first of such numbers that may be in the Library.

XII. Persons desiring books purchased for the Library will give to the Librarian a list embracing the names of the books, names of the authors, and also of the publishers, when convenient, and if found suitable, they will be procured by the Trustees as soon as possible.

XIII. The Library shall be open for the delivery of books upon Tuesday and Saturday of each week, from 3 to 5 and 6.30 to 8 P. M., but books will not be delivered to pupils of the public schools on Saturday evening, and they will not then be permitted in the Library Room.

OSGOOD H. WATERS,
AMOS ARMSBY,
JOHN HOPKINS, } *Trustees.*

Report of School Committee.

To the Inhabitants of the Town of Millbury:

Your Committee respectfully presents the following general and detailed reports upon the schools.

Following the plan adopted by the School Committee in former years, the different members have been assigned as sub-committees to the particular charge of certain schools, and the reports of these several sub-committees made to the chairman are hereunto appended.

Mr. D. C. Avery was appointed sub-committee for the West Millbury School.

Messrs. Bancroft and March for the Bramanville schools.

Messrs. Bancroft and Avery for the Old Common School.

Mr. Harrington for the Union Primary, Greenwood and Providence Street Intermediate Schools.

Mr. Flagg for the Hayward, Union Sub-Primary and Union Intermediate Schools.

Mr. Hopkins for the Union Grammar, and Providence Street Primary and Sub-Primary Schools.

DEATH OF MR. AVERY. It is with pain that we mention the death which occurred during the summer, of one of our associates, Mr. D. C. Avery. Mr. Avery had for many years been a member of the School Board, and on account of his familiarity with the schools gained by his long service upon the Committee, and his earnestness in attention to duty, we felt that we had been deprived of the counsels and co-operation of one whose loss could not easily be replaced, and that the town had lost the services of a competent, energetic and trustworthy officer.

In all his relations with his associates upon the Committee, with the teachers, and with the scholars, he had endeared himself to them, and had gained the respect of all by his unselfish labors for the good of the schools.

ELECTION OF MR. DAVIDSON. In accordance with the law, the School Committee, after the proper notice had been given, met the Board of Selectmen on the 28th of August, and upon joint ballot, elected Mr. Henry W. Davidson of West Millbury to fill the vacancy then existing in our Board. Mr. Davidson was assigned as sub-committee to the same schools over which Mr.

Avery had had charge, viz. the two schools in West Millbury and that upon the Old Common.

NUMBER OF SCHOOLS MAINTAINED.

In addition to the High School we have maintained during the past year 15 Common Schools, viz.:

WEST MILLBURY. 1 Grammar School, 1 Primary, 1 Ungraded.

OLD COMMON. 1 Ungraded.

BRAMANVILLE. 1 Grammer, 1 Intermediate, 1 Primary, 1 Sub Primary.

MILLBURY CENTRE. 1 Grammer, 1 Intermediate, 1 Primary, 1 Sub Primary.

PROVIDENCE STREET. 1 Intermediate, 1 Primary, 1 Sub Primary.

BURLING MILLS. 1 Ungraded.

These schools have been in session three terms, two terms having been of eleven weeks each in length, and one of twelve weeks, making an aggregate of 34 weeks. There having been no call for evening schools, none have been maintained.

SCHOOL HOUSES.

Our school houses, eight in number, counting the building in which the High School is kept, are generally in good condition, and no expensive repairs will be needed during the coming year.

A specific appropriation of five hundred (500) dollars for the repair of school buildings was made by the town at the last March meeting. Of this amount there have been expended three hundred and fifteen dollars and sixty-five cents (315.65) leaving an unexpended balance of \$184.35.

With the exception of lack of proper means of ventilation, our school houses are well adapted to their purpose.

This question of ventilation has forced itself upon the attention of the Committee, more especially in connection with the Union school house and the school house in Bramanville. The school rooms in these buildings are generally full. Indeed, on account of the number of scholars attending the Bramanville Sub Primary during the fall and winter terms, a part have necessarily been placed in another room, and under the charge of an additional teacher. In rooms thus crowded and with no means of ventilation, the air quickly becomes vitiated, and to remain in it long in that condition has a depressing effect upon the scholars, rendering them listless and dispirited, and exerts an injurious influence upon their health.

No plan for remedying the defects in these buildings has been decided upon by the Committee, and not being able to lay any estimate before the citizens, we do not feel like asking for a specific appropriation for this purpose. Should, however, during the coming year, a plan be hit upon which will accomplish the purpose and not involve too considerable an outlay, the Committee, feeling that the citizens agree with them as to the importance of the matter, would feel at liberty to ask the Selectmen to meet the expense out of the appropriation for miscellaneous expenses.

MUSIC.

The result of the experiment, tried the previous year, of introducing the study of Singing in our schools was so favorable that during this year we have extended the instruction to the other schools.

Mr. T. H. Lyndon, a teacher of much ability, has been employed by the Committee at a salary of nine (\$9,) dollars per week. Mr. Lyndon has visited the High School, the Old Common, West Millbury Grammar, Greenwood, Bramanville Grammar and Intermediate, the Union Grammar and Intermediate, and the Providence St. Intermediate Schools, on two days in each week. Under his instruction considerable progress has been made, and at the close of the school year, an examination of all the Common Schools, in which instruction in music had been given, was held in the Town Hall.

The experiment having now been tried for two years, we feel assured in saying that the introduction of music as one of the branches taught in our schools has been a success, and we are disposed to continue the plan.

Now that the winter singing school has with us become a thing of the past, and very few scholars will enjoy the advantage of any instruction out of the schools, we think that it is well that our youth should be able to obtain in our public schools instruction in an art which it is well to keep alive among us. In addition to the immediate good of teaching the scholars to sing, the effect of the instruction upon the schools is favorable, having a refining influence and offering an agreeable change from the monotony of the school-room often felt by the scholars.

The expense of this branch during the last year has been \$319.44.

WRITING.

The teaching of writing as at present conducted in our schools is not a success. This fact results from several causes, the chief among which is that the teachers employed in the

schools are not able to give competent instruction in that art. Not that the majority of our teachers are not good writers, but to know how to write and how to teach others to write, are entirely different accomplishments.

In every other branch of education taught in the schools, the scholars are divided into classes, have regular lessons assigned from day to day, and by means of oral recitations, their progress is watched, and the scholars give mutual aid one to another. But in writing, the scholars are as a rule left to themselves. True they devote a certain time to their writing books. Those who have an aptitude for the art quickly fill their books but many of them as quickly fall into such bad habits in writing as serve to offset whatever talent they may possess.

Those to whom the acquirement of the art is difficult, or who are lazy, make little progress. In order to teach writing with success, something more is necessary than to tell the scholars at stated times to take their books and write for half an hour.

That writing should be considered equal in importance to the other branches taught in our schools seems to need no argument.

The effective mode of bringing this branch to a par with the others, would seem to be, to hire a competent professional teacher of writing to visit our schools on certain days in the week. This we can do at an expense of about \$250.

At a meeting of the Committee held Feb. 25th, when the subject was discussed, it was voted that the chairman be instructed to ask the town to appropriate a specific sum to establish a department of instruction in Penmanship in the public schools the coming year.

HIGH SCHOOL.

Principal, 1st Term, Mr. E. S. HUME. Salary \$1200.

Principal, 2d and 3d Terms, Mr. LEONARD MORSE. Salary \$1100. Assistant, Miss ABBIE JOHNSON. Salary \$600.

The High School has been in session forty weeks during the past year. At the end of the first term we were obliged to part with the then principal, Mr. Hume. Under Mr. Hume the school had attained a high excellence in scholarship and deportment. He was a careful, thorough, and conscientious teacher.

For the Fall and Winter terms, Mr. Leonard Morse has been employed as teacher, at a salary of eleven hundred dollars per year. With Mr. Morse we have been well pleased. So long as our High School remains in the charge of such teachers as Mr. Hume and Mr. Morse, we feel assured that it will be a successful one. Its present popularity is attested by the fact that dur-

ing the year, thirteen scholars from Sutton have attended the school.

Scholars from out of town pay a fee of six dollars per term.

The Committee has looked with favor upon the attendance of out of town scholars at this school, because those willing to come such a distance to attend school generally prove to be good scholars, and being able to join the upper classes which are smaller than the others, add but little to the labors of the teachers.

Miss Johnson, the able assistant, has remained with us another year. In recognition of the value of her services, her salary was made at the beginning of the school year six hundred dollars.

The Philosophical apparatus purchased for the school some years since, is in good condition, and its use is of much assistance to the teacher and benefit to the scholars.

The Piano which had been hired for the use of the High School was purchased at the beginning of the school year. The price asked for the instrument and stool was \$305. It had been hired on condition that should the town see fit to buy it the amount paid for rent should be deducted from the price.

There had been paid as rent \$75. Adding to the price \$14.45 for interest, and deducting \$75, left a balance of \$244.45 for which the Selectmen gave an order.

During the summer vacation the rooms occupied by the High School were papered and the ceiling repaired and whitened, thus making the rooms which for a long time had been in need of repair, more suitable for our most important school. The expense of these repairs was \$90.43.

The following statistics have been prepared by Mr. Morse:

Whole number of different scholars last two terms, 59.

Boys 32, girls 27.

Average attendance, Fall Term, 45.

Average attendance, Winter Term, 46.

The absence marks have been incurred for the most part by five or six scholars.

The class graduating at the close of the school year numbered 9, viz:

Misses Anna A. Stratton, Fanny Freeland, Ellen E. Young, Ella F. Stockwell, Jennie M. Harrington, Melissa F. French, Minnie A. Marble, Mr. Perry C. Sanderson, Mr. Pliny W. Emerson.

The first in rank was Miss Stratton. The second in rank was Miss Freeland.

For general improvement, honorable mention is made of

Pliny W. Emerson; for excellence in deportment, Misses Freeland and Young.

In the second class, Miss Mary Connor deserves mention for excellence in deportment and scholarship.

In the third class, for industry and meritorious scholarship, mention is made of Mary Freeland, Ella Crossley, Wilbur Aiken, Charles Hale, Henry Paine, Alphonso Sawyer, and Judson Wood.

For merit in deportment, the following members of the fourth class are commended: Helen Eddy, Louis Chase, Frederic Tainter, Frederic Dunnely, George A. Slocumb, Frank Hale, and George Eddy.

Sherman, labor on School House,	18.50
Waterman Ryan,	10.50
Various Small Bills,	20.57-\$315.65
Amount of Appropriation,	\$500.00
Leaving unexpended,	184.35
PIANO—Balance due,	\$244.45

SALARIES OF SCHOOL COMMITTEE.

George A. Flagg, Chairman,	\$75.00
H. L. Bancroft,	30.00
D. C. Avery,	13.00
H. W. Davidson,	20.00
T. R. Harrington,	40.00
John Hopkins,	50.00
D. T. March,	20.00-\$248.00

Amount in Recapitulation brought forward,	\$807.60
Total Cost of Schools,	7730.54
	\$8538.64

By an inspection of the foregoing financial exhibit it will be seen that the committee has had at its disposal the appropriation for the support of schools, viz:

Amount received from State,	\$7500 00
	243 96
	<hr/> \$7743 96

We have expended

For salaries of teacher of High School,	\$1732 50
" " Common Schools,	4703 00
For expense of singing,	319 44
care of rooms and supplies,	632 16
Fuel,	343 44
	<hr/>
Total,	7730 54

Leaving a balance unexpended of

\$13 42

In order to show the citizens the total expense of the schools to the town, items have been included in the exhibit paid for out of appropriations other than that for the support of schools, viz: For repair of school house,

\$315 65

Piano,

244 45

Salaries of Committee,

248 00

Adding these items to the figures above, make as

total costs of schools for the year 1872-3, \$8538 64

Basing our estimates for the coming year upon the foregoing figures, we shall need appropriations to cover the following items:

For salaries of teachers,	\$6450
Care of schools and supplies,	600
Music,	310
Fuel,	340—
We shall receive from the State, say	\$7700
	240

Leaving amount of appropriation needed,

\$7460

Should the town see fit to make an appropriation for teaching writing, there must be added the sum of

250

Making a total of

For repair of school houses, we recommend an appropriation of	\$7710
	\$300

Respectfully submitted,

For the Committee,

GEORGE A. FLAGG, *Chairman.*

REPORTS OF SUB-COMMITTEES.

I.

BRAMANVILLE SCHOOLS.

Sub Committee.—H. L. Bancroft and D. T. March.

To the Chairman of the School Committee:

The Sub Committee for schools in Bramanville, submit the following statement of the condition of the schools under our charge.

Grammar School.—Teacher Miss Martha F. Sibley. Salary, \$10.

Whole number 1st term,	33	Average, 33
“ 2d term,	26	“ 23
“ 3d term,	24	“ 21

The grammar school has been taught through the year by Miss Martha F. Sibley, an old and tried teacher, who has fully sustained her reputation as a teacher. The school has not been large but constant in its attendance and has made good progress in the studies prescribed.

Intermediate School.—Teacher for spring and fall terms, Miss Mary P. Anderson. Salary, \$9.50. Teacher for winter term, Miss Hattie Little. Salary, \$9.50.

Whole number scholars, 1st term,	47	Average, 40
“ 2d term,	38	“ 35
“ 3d term,	40	“ 33

The intermediate school for the spring and fall terms was taught by Miss Mary Anderson, who has fully sustained her well earned reputation as a teacher and disciplinarian. The winter term was taught by Miss Hattie Little, who maintained the good order and discipline of the school. The school has made good progress during the year.

Primary.—Teacher, Miss Mary F. Bancroft. Salary, \$9.00.

Whole number 1st term,	49	Average, 41
“ 2d term,	45	“ 39
“ 3d term,	45	“ 37

The primary school has been taught by Miss Mary F. Bancroft during the past year and for the past four years, to the entire satisfaction of parents, scholars and committee, and we are sorry to lose her valuable services.

Sub Primary.—Teacher, Miss Fannie A. Browning. Salary, \$9.00. Assistant, fall term, Miss Annie M. Hutchinson. Salary, \$5.00. Assistant, winter term, Miss Nellie Nye. Salary, \$5.00.

Whole number 1st term,	79	Average, 65
“ 2d term,	95	“ 76
“ 3d term,	81	“ 59

The sub-primary has been taught by Miss Fannie A. Browning, who has had charge of the school for several years and with the uniform success that has attended her labors in this first school for the children.

So large has this school become that the committee have been obliged to employ an assistant for the fall and winter terms. In the fall Miss Annie M. Hutchinson, and in the winter term Miss Nellie Nye were employed. Both have shown good tact in teaching and interesting the little children. The sub committee for these schools have been able to carry out the policy of the committee in retaining old teachers, there having been but one change during this year, and to this fact, we think, is due in a great measure the success of the schools.

New furniture is much needed in some of the rooms and we hope an appropriation will be made for that purpose by the town.

Respectfully submitted,

H. L. BANCROFT, } *Sub*
D. T. MARCH, } *Committee.*

March 6th, 1873.

II.

UNION PRIMARY SCHOOL—GREENWOOD SCHOOL—PROVIDENCE ST. INTERMEDIATE SCHOOL.

Sub Committee.—T. R. Harrington.

Union Primary School.—Teacher for the year, Miss L. A. Harding. Wages per week, \$8.50, \$8.50, \$9.00.

Whole No. of attendance, Summer term,	48	Average, 40
“ “ Fall term,	41	“ 37
“ “ Winter term,	41	“ 33

This school has been fortunate in having the same skillful teacher these last three years. The same quiet stillness prevails, and the progress we look for, from term to term, is always found. On the walls of the school room are exhibited very beautiful drawings by the children, showing conclusively that this delightful art may be cultivated in our schools without retarding the common branches of education taught in them.

Providence St. Intermediate School.—Teacher, Miss Jennie Kneeland. Teacher's wages per week, \$8.50.

Whole No. in attendance, Summer term,	30	Average,	21
" " Fall term,	27	"	20
" " Winter term,	32	"	25

The teacher by her good management of the school, and the scholars by sustaining their accustomed good deportment, and commendable progress in their studies, have merited and received the approbation of the committee.

Greenwood School.—Teacher, Miss M. E. Ball. Wages per week, \$10.

Whole No. in attendance, Summer term,	30	Average,	21
" " Fall term,	27	"	20
" " Winter term,	32	"	25

Miss Ball has taught this school four terms with approved success. At the close of the fall term she found the labor disagreeable and requested that she might have a school more easily managed, which request was granted. Under these circumstances the winter term was taught by one of the committee.

Respectfully submitted,

T. R. HARRINGTON, *Sub Committee.*

March 10, 1873.

III.

OLD COMMON—WEST MILLBURY GRAMMAR AND PRIMARY SCHOOLS.

Sub Committee.—H. W. Davidson.

Old Common School.—Teacher, Carrie E. Lombard. Wages of the teacher per week, \$8.00.

Whole No. in attendance, Spring term,	23	Average,	21
" " Summer term,	26	"	20
" " Fall term,	22	"	20

The Old Common School has been taught the past year by Miss Carrie E. Lombard, who graduated at the High School, taking the lead of her class. Miss Lombard has fully sustained herself as a teacher. The school has been characterized by good order, and unusual distinctness and promptness in recitation. The advancement for the last term especially was very good. There has seemed to be a mutual good feeling between teacher, scholars and parents, rendering Miss Lombard's first year of teaching a happy success.

West Millbury Grammar School.—Teacher for the year, Miss Addie M. Greeley. Wages of teacher per week, \$10.

Whole No. in attendance, Spring term,	23	Average, 18	1-2
" " Summer term,	29	"	23 1-2
" " Fall term,	29	"	24

This school has had the benefit of a thorough instructress. The advance made by the scholars in their various branches has been commendable. At the close of the last term quite a number of scholars absented themselves from the school and annual examination. We are glad that no such movement was countenanced by the District in general. Those who were present bore a good examination, and did themselves much credit.

West Millbury Primary School.—Teacher for the year, Miss Lucy A. Hayward. Wages of teacher per week, first two terms, \$7.50, last term, \$8.00.

Whole No. in attendance, Spring term,	33	Average, 28	
" " Summer term,	30	"	27
" " Fall term,	27	"	23

This school was fortunate in having the services of the same teacher a second year. Miss Hayward has labored faithfully and patiently, we think, for the best good of her scholars. The school has been very satisfactory to the committee; the teacher being well adapted to her scholars, thereby gaining their love and attention, by which rapid advancement was made in their studies.

Respectfully submitted,

H. W. DAVIDSON, *Sub Committee.*

IV.

UNION GRAMMAR SCHOOL—PROVIDENCE STREET SUB-PRIMARY
SCHOOL—PROVIDENCE STREET PRIMARY SCHOOL.

Sub Committee,—John Hopkins.

Union Grammar School.—Teacher for the year, Nellie M. Andrus. Length of school in weeks, 34. Wages of teacher, 1st term, \$10: 2d and 3d terms, \$11 per week.

Whole number in attendance 1st term	33	Average,	30
" " " 2d "	34	"	30
" " " 3d "	38	"	32
Average attendance for the year,			31
Whole number of tardy marks, 1st term,			138
" " " 2d "			136
" " " 3d "			393

ROLL OF HONOUR. Not absent during 1st term—Belle Wood, Emily Matthews, Minnie McIntire, Emma Rearden, Henry York. Not absent during 2d term—Lottie Stratton, Belle Wood, Jennie Waters, Minnie McIntire, Jacob Lincoln. Not absent during 3d term—none.

Not tardy during 1st term—Belle Matthewson, Lottie Stratton, Lillian Revere, Nellie Lovell, Flora Matthewson, Nellie Ward, Julia Daggan, Emma Reardon, Jennie Waters, Laura Lincoln, Frank Pettibone, Walter Cargill, Frank Colwell, Frederic Holman, Walter Wheeler, Jacob Lincoln. Not tardy during the 2d term—Belle Matthewson, Lottie Stratton, Laura Lincoln, Fred. Bennett, Walter Wheeler, John Conner, Jacob Lincoln, Frederic Holman. Not tardy during 3d term—Lottie Stratton, Walter Wheeler, Charles Eddy. Not tardy during the year—Lottie Stratton, Walter Wheeler.

Miss Nellie M. Andrus, who had rendered good service in the Providence Street Schools, was placed in charge of this school at the beginning of the year, and under her instruction and management, it has steadily advanced in all the essentials of a good school, and has taken the position which its grade and its material entitle it to hold among the schools of the town.

The improvement in order and scholarship which the Committee have from time to time observed, has been very gratifying, and the more so, from the fact that we have been called upon to criticise the school in these respects somewhat severely in former reports.

At the beginning of the year, eight scholars were transferred from the Providence Street Intermediate School to the first class in this school, and have become, with those formerly belonging to that class, candidates for admission to the High School.

The foregoing statistics from the school Register, exhibit important facts for the consideration of the community. The average attendance is far above that formerly attained in this school, and we trust is an earnest only of what may be hereafter accomplished.

The decrease in the number of tardy marks is very noticeable, and yet the aggregate is altogether too large, and we hope for a still further reduction during the year to come.

The Roll of Honour is so designated, that the scholars therein mentioned may understand that the community appreciates punctuality in the performance of the duties that fall to them, and in the hope that it may yearly increase in numbers.

Providence Street Sub Primary School.—Teacher for the 1st and 2nd terms, Fannie S. Lovell; for the 3d term, M. E. Ball. Length of school in weeks, 34. Wages of teacher 1st and 2d terms, \$8 per week; 3d term, \$9 per week.

Whole number in attendance, 1st term	62	Average	45
" " "	2d "	68	" 57
" " "	3d "	61	" 42
Average attendance for the year,			48

At the end of the second term, Miss Lovell was transferred to the Union Sub Primary School, and was succeeded by Miss Ball, who was transferred from the Greenwood school.

The average attendance of this school has been low, low even when the age of the scholars is taken into consideration, and we would suggest to parents in the district accommodated by this school, that the evil is of magnitude and is within their power to correct.

The school throughout the year, except in this respect, has been satisfactory to the Committee. The school room is a pleasant and cheerful one, and has been made attractive by the painstaking and patient teachers who have had it in charge during the year.

Providence Street Primary School.—Teacher for the year, Hattie E. Forbes. Length of school in weeks, 34. Wages of teacher, \$8 per week.

Whole number in attendance, 1st term	38	Average	28
" " "	2d "	32	" 26
" " "	3d "	25	" 20
Average for the year,			25

This school has been orderly and in a measure successful during the year. Its noticeable failure has been a lack of earnestness and vivacity in the school exercises—a failure, which we hope the teacher will be able to correct the coming year, as its tendency is to disorder. The character of the recitations has been highly creditable to teacher and pupils and with the foregoing exception, the Committee have been satisfied.

Respectfully submitted,

JOHN HOPKINS, *Sub Committee.*

V.

UNION SUB PRIMARY—INTERMEDIATE AND HAYWARD SCHOOLS.

Sub Committee.—George A. Flagg.

Union Intermediate.—Teacher for the year, Miss Julia A. Bunker. Salary, \$9.00 per week.

Whole number, 1st term,	32	Average attendance,	24
" 2d term,	34	"	26
" 3d term,	31	"	25

When Miss Bunker took charge of this school at the beginning of the year, it was in an unsatisfactory condition, but under her management it has become a good school. Miss Bunker is not obliged to confine herself to the text book but keeps her scholars interested and their minds active by asking questions and giving illustrations outside of their books. It is true that the class of scholars in this school has changed somewhat for the better within the last year, but we feel confident that the change in the school for the better is due in a great degree to the teacher.

Union Sub Primary.—Teacher for Spring term, Mrs. Webber. Salary, \$10.00. Teacher for Fall term, Miss Nellie Sawyer. Salary, \$10. Teacher for Winter term, Miss Fanny Lovell. Salary, \$8.50.

Whole number, 1st term,	55	Average attendance,	45
" 2d term,	57	"	42
" 3d term,	51	"	35

This school has suffered by its frequent change of teachers. Mrs. Webber, its old and competent teacher, was unable to take it during the fall and winter terms, and for the fall term Miss Sawyer took her place. For a time Miss Sawyer was obliged to give up the school on account of sickness. For the winter term, Miss Lovell, who had taught a school of this grade at Providence Street School, was transferred to this school. Her success has been very satisfactory.

In the Hayward district, no school has been kept during the year.

Respectfully submitted,

GEORGE A. FLAGG, *Sub Committee.*
